

## Shop Window Design

Scale –        One 5mm-grid space equals 300mm  
                    One mm equals 60mm

The Shop front is 20 grid spaces (6000) by 12 grid spaces (3600)

The Door is 4 grid spaces (1200) by 7 grid spaces (2100)

The scale you are using is 1:60

Your model is 1:12

## Stages of Development

### Stage 1

1. Have grid on as well as GRID LOCK.
2. Set your line thickness to 0.25
3. Draw over-all outline (Dimensions above).
4. Draw in overview such as windows, door and signs, etc.

### Stage 2

1. Switch STEP LOCK on. (1mm Grid)
2. Zoom in and draw in detail such as window and doorframes, etc.
3. You can also try out "Contour".

### Stage 3

1. Add text for shop name and number.
